- **Regulate GOs and disclosure in one piece of legislation**
- **Assign a formal role to the AIB**
- **Include the calculation of the residual mix in RED II**
- **Apply the same level of VAT fraud protection to GOs as there is for emission, power and gas markets**

- **Empower consumers by offering a greater choice of transparent tariffs**
- **Explore the possibility of using GOs for 2020 target auctions and/or for post-2020 targets**
- **Consider the possibility of a mandatory application of the GO systems to heating / cooling**
Thank you for your attention.
